- 35** VLT's Sharpest Images Ever

Features

- 18** NightScapades: Ireland Guest of Honour in France
Ann Dunne attends PNA Awards at French stargazing festival.
- 32** Moon Feathers
Early scientists' view of weightlessness and vacuums. By **Ted Alston**

Sky Diary

- 22** Great views of the Perseids are expected with no Moon interference this year. A new comet has flared twice already and may reach naked eye visibility C/2017 S3 PanSTARRS. Mars is at its best in 32 years, and Venus, Jupiter & Saturn are all in evening skies and near the Moon this month.
Compiled by **David Moore**.

Regulars

- 4** Editorial
David Moore
- 4** Letters
Questions, comments & opinions
- 30** Hubble Space Telescope
Hubble spies irregular galaxy with strange supernova.
by **Karl Hille, ESA**
- 36** What's Happening on the International Space Station?
Summer on the space station, first look-back camera, spacewalk repairs, new experiments.
By **Brian Harvey**
- 38** Spaceflight News
John Hackett remembers astronaut Al Bean who died recently.
- 40** Observer's Log
Featuring images sent by you. Compiled by **Natasha Metcalfe** and **Ann Dunne**.
