Features

- 12 The Great Conjunction of Jupiter and Saturn
compiled by **Philip Barry and Ann Dunne**
- 19 Book Review by Mike Egan
The Space Barons by **Christian Davenport**
- 32 Total Eclipse in a Pandemic
by **Diego Guerrero and Robert B Slobins**
- 38 The Eponymous Professor Fitzgerald
by **Ted Alston**
- 42 Mars: A Cosmic Stepping Stone
As three missions arrive at Mars, **Kevin Nolan** continues his major Red Planet series

Sky Diary

- 22 Mars will be near the Moon as 3 new spacecraft arrive this month. Then Mars inches close to the Pleiades star cluster at month's end. The Moon gets close to Uranus allowing beginners to locate it. The Moon gets close to several bright stars and will be spectacular between Pleiades and Hyades. ISS is also in Irish evening skies as the month opens. Compiled by **David Moore**.
