Gamma-ray burst by **Ann Dunne**
- 34** What's Happening on
the International Space Station?
Canadarm repair Spacewalk.
By **Brian Harvey**
- 38** Observer's Log
Readers images and sightings.
Compiled by **Natasha Metcalfe**
- 40** Spaceflight News
International Lunar Space Station and
Deep Space Gateway to Mars, new
NASA Administrator rejects climate
change. By **John Hackett**
- 44** Reader's Gallery
Enthralling deep space objects, Crescent
and Heart Nebula, Beaver Moon and
Orionid by **Ann Dunne**
- 47** Curiosity at Mars
Rovers cameras show minerals on
landscape. By **Ann Dunne**

Sky Diary

- 22** Mars gets very close to Jupiter around Jan.7th. Uranus & Neptune are in evening skies but Jupiter dominates morning skies. The Moon is Full twice this month giving us a Blue Moon and there are two 'Super Moons' this month also. Compiled by **David Moore**.
